Planbook for Mac is an app designed to enable educators to manage their lesson plans using an elegant, sophisticated application. Planbook is used by thousands of K-12 Teachers, College Professors, and Homeschool parents. Planbook is available for sale directly from http://www.hellmansoft.com or from the Mac App Store. Generous site license pricing is also available.

Below, please find the latest user guide for Planbook. If you prefer a printer or PDF version of this document, please use the print/export options on the left side of the screen. Any page may be printed and the entire book is also available as one large HTML page or as a PDF file. Please don't hesitate to contact me at jeff@hellmansoft.com with any questions.

Good luck and happy planning!

--Jeff Hellman (jeff@hellmansoft.com)
